Annual awards for young researchers in the field of statistical physics and condensed matter theory

Institute for Condensed Matter Physics of the National Academy of Sciences of Ukraine announces a new competition for young researchers working in the field of statistical physics and condensed matter theory. The best works selected by the Competition Committee will be commended by the Special Awards. The competition was established by the Directorate and the Council of Young Scientists of the Institute for Condensed Matter Physics in 2001 and it is dedicated to the anniversary of the Institute foundation. In 2004 the Institute will celebrate the 35th anniversary of its first department, the department of statistical theory of condensed systems, which was founded in May, 1969.

Applicants should meet the following criteria:

- be in the age group up to 35 years at the time of application;
- working or studying at the research institutions or universities in Ukraine.

The awards will be presented during the special Workshop devoted to the problems of statistical physics and condensed matter theory (Lviv, 27–28 May, 2004).

Applicants may obtain additional information and application forms for downloading from the ICMP website

`http://www.icmp.lviv.ua/konkurs/`

Applications should be sent before April 15th, 2004 to

Institute for Condensed Matter Physics,
1 Svientsitskii Street,
79011 Lviv, Ukraine

Other enquiries should be addressed to:

Council of Young Scientists
Institute for Condensed Matter Physics,
